To Whom it May Concern

This letter serves as confirmation of services provided to Swire Cold Storage by Omnico Engineering in 2007/8 at our Song Than warehouse in Vietnam.

We engaged Omnico to assist with the installation of a major ammonia industrial refrigeration plant. The plant provides refrigeration to approximately 3 million cubic feet of space (storage of approximately 10,000 MT of product).

The brief was to work with the refrigeration contractor and ensure that the refrigeration plant was delivered on time and in accordance with the specifications outlined in the contract documents. The task was not simple as Omnico was reporting directly to Swire but needed to exert authority over the refrigeration contractor and in limited situations over the project manager also.

The project was around 6 months and the end result was and remains very satisfactory. At all times throughout the project Omnico were professional and courteous. Importantly, Omnico have remained available to Swire to consult with as various minor plant issues have emerged.

I have no hesitation in recommending Bjarne and his team. Please feel free to contact me directly to discuss any element of our experience working with Omnico.

Regards

Graham Sanders
